DECEMBER 9

AT

KELLY PARK

"THE BIG ONE"

**2006 FLORIDA STATE
CHAMPIONSHIPS**

UPCOMING EVENTS, by Bob Putnam

(DATES ARE TENTATIVE - CHECK THE WEB PAGE FOR UPDATES)

Dec 9 – THE BIG ONE - Kelly Park

That's right. December's event is for FLO the Big One, every year. A few years back we had the highest attendance ever at a December event at Wekiwa., and this year promises to carry on the tradition of finishing out the year with a bang.

Write it on your calendar now- Rip it out of the newsletter now, or download it from your e-newsletter - so you won't forget. "December 9 at Kelly Park".

The courses themselves, except for White and Yellow, will range through the northern reaches of Wekiwa Springs State Park - accessing through the boundary gate - and as usual our good friends at Wekiwa have agreed to permit free access to all O-er's.

Let's not forget, though, that we will pay our usual day-use fees at Kelly for the privilege of using their fine facilities. Enter Kelly from Florida Route 535 just north of Apopka. Directions are on the Web Page.

Expect to convene at the usual picnic pavilion at the top of the hill inside Kelly and don't forget to bring a change of clothes and a towel so as to enjoy the Spring Run of the Rock Spring itself after your hike.

We've got a fabulous set of courses for you. Most especially note that the White and Yellow for novices, and those who want to just take it easy, are entirely within the friendly confines of Kelly Park, where no one gets lost, but everyone learns how to have fun orienteering.

The Orange course and all advanced level courses will be a little long-ish due to the Wekiwa Forest access from the center of Kelly Park, as you might guess.

! 230 POUNDS OF FOOD COLLECTED !

**THE FLO FOURTH ANNUAL
SECOND HARVEST FOOD BANK "BECAUSE HUNGER HURTS" FOOD DRIVE
WAS A GREAT SUCCESS - THANKS TO YOUR GENEROUS CONTRIBUTIONS**

Wekiva Springs, Nov. 11, 2006, by Bob Putnam

EC: Russ, Ray, et al CS: Bob Putnam

Veteran's Day - with incredibly few veterans of any stripe, FLO veterans or service veterans or otherwise, showing up to enjoy what may have been some of the more fabulous courses ever offered at Wekiwa, even if I do say so myself.

I counted somewhere around 70 attendees. If you were among them, thanks ever so much for your support.

If you stayed away because you knew there would be that humungous walk to start and back again from finish (it was over a mile each way this time), I promise to ask the park (groveling all the while!) to consider allowing us back into the Youth Camp auditorium for future events.

Now that we have arranged to have separate JROTC and FLO-civilians events, the huge crowds that Wekiwa was worried about are not turning out. Since being forced into these logistics we've had 240 and 120, and now 70, attendees.

Maybe they'll listen to reason when I point out that this current policy is absolutely killing us. Not since Ocala Forest October 1992 at Paisley have we had fewer people turn out to a peak-season event.

However, that does not detract from a few outstanding features of this event. First, Ray Bruneau beat Artur Intson on red; a first for Ray I think, and in doing so he even beat Bob Hill's winning time on the green course. Some feat.

Second, for the first time in my life I witnessed a fight between two deer in the woods. While I was setting the brown-green-red controls early in the morning I saw two 8-point bucks fighting - just like on Discovery Channel - antlers clacking and dust flying - for several minutes. Then one of them just broke off and ran away.

Third, FLO welcomed a new Life Member in Donnie Sloan. Thank you, Donnie.

Fourth, those to whom I have spoken said they really enjoyed the courses. Not a bad day at all.

I saw lots more wildlife - turkeys and more deer, but no bear, although Jonathan Linforth relates a story of his nearly hitting one on the highway last week.

I missed greeting most everyone, since I set controls early and then left before noon to fulfill other commitments and therefore I am not certain of all who must be included in the Thank You's.

However, I do know Ron Eaglin and John Ide helped set controls; Russ Steinke, Ray Bruneau, Jack Cash, Jeanne Ryba and Mike Dempsey were on hand early to set up, do training, place trail signs and run start/finish and registration; and Jonathan Linforth printed and delivered all maps and stuck around for a few extra hours even though he had other commitments. Then Ron and Jerry Sirmans went back to help retrieve controls at the end of they day.

I was especially interested in the reactions of Yellow course participants, since I was so pleased with the design of Yellow. Maybe some reading this will share their impressions. They had 11 controls in less than 3 km, so much to do, but I was able to work in some real opportunities to cut cross country, through that knee-high golden grass, on several legs and I hope they did so.

Yellow course times were longish, though - suggesting lots of folks took the round-about routes via trails. The White course was very much enjoyed by Eric Barr's family, he tells me, but no one else took advantage. Sniff, Sniff.

I was hoping most of you noticed the steadily improving look to the forest in the area we used. The controlled burns are re-establishing a dominant wiregrass (if that's what it is) habitat in the upland pine portions that positively glows under an autumn sun, particularly over most of the White, Yellow and Orange course areas used.

I also hoped everyone appreciated the new map and especially its flawless inclusion of the varied vegetation thickets throughout the areas used by the Brown-Green-Red courses. I think that's the strength and highlight of the remapping done by Ales & Vendy last February.

Wekiva Springs, continued from page 2

We spent some time moping among ourselves over the poor turnout and 'threatening' not to use Wekiwa any more if they don't treat us better, but that's no threat at all as we'd only be spiting ourselves and wasting a fine venue.

As for the weather: perfectly pleasant, in the 70s most of the day. Lots of dew in the grass early, so I ran with sopping shoes most of the way although later probably no one got even damp. I took a little extra time setting because I forgot my compass and veered badly a few times, even nearly hanging one of the controls on the wrong thicket despite having ribboned everything myself a few months back.

Remember next month is the Florida Championships at Kelly Park, with all FLO and JROTC together, with those few crazy runners completing for medals and bragging rights while the rest of you simply hike through some of the even more beautiful Florida forests at that end of the park. 🚩

Consider How Your Everyday Actions Affect Life On Earth... then make planet-healthy choices.

The decisions we make in our everyday lives, no matter how insignificant they may seem, make an enormous impact on wildlife and ecosystems.

And many of the actions that make the biggest difference are also good choices for your personal health and household finances.

1. Show your commitment to conserving our planet's resources by recycling glass, paper, and plastic. And whenever possible, buy products made from recycled materials.
2. Replace standard light bulbs with energy-efficient fluorescents, which keep half a ton of CO2 out of the atmosphere.
3. Buy wood products with the Forest Stewardship Council (FSC) label that marks wood products from well-managed, independently certified forests.

4. Green up your yard using natural products instead of pesticides. Use traps, parasites, and natural predators such as ladybugs. Use your grass clippings as mulch, or use a mulching mower to return the nutrients to your lawn instead of applying commercial fertilizer.
5. Look for the Marine Stewardship Council (MSC) label when you purchase salmon from your local grocery – the label ensures that fish products come from well-managed fisheries that maintain healthy fish stocks and preserve surrounding ecosystems.

Visit www.worldwildlife.org to learn more about what you can do to make planet-healthy choices in your everyday life.

If you receive this newsletter by mail you could also save resources by switching to electronic delivery. We would send you an email with a link that points to a PDF file that you can view, download, or print. The electronic version includes color, and links that you can click on for further information.

If you would like to receive future issues electronically, please email news@FloridaOrienteering.org with your preferences.

Rock Springs Run State Reserve, Sept. 9, 2006,

by Russ Steinke

EC: Russ Steinke CS: Bob Putnam

Thanks to all of the volunteers who helped make the National Orienteering Day event at RSRSR a success.

A refreshment tent added to the festive atmosphere, and a cap and compasses donated by Brunton as door prizes were added bonuses for a few lucky winners (thanks to Andrea and Bob for help with the drawings.)

Bob designed some nice courses and flagged control locations in advance. Jonathan put in a ton of work over the previous weekend pre-printing the maps, not only for this event but for upcoming ones as well, in addition to getting site approval.

(We are sorry that the parking area was not mowed - we understand that the Reserve's mower is in need of repair.)

Ray brought our equipment and helped me and others set it up. Bob, Dave Shuman, Jamie Sheriff, and Nikki Wright set out the control flags. Janet ably handled the registration table, while Toby and crew conducted the JROTC portion. Both Bob and Ray gave instruction to newcomers (and there appeared to be lots of them).

Jamie also helped me at the start/finish table. Finally, Joe, Jerry, and Ray retrieved controls on the south side of the dirt road. My apologies to anyone I may have forgotten in the above: know that your efforts were nonetheless appreciated. ■

Moss Park / Split Oak Forest Oct. 14, 2006,

RESULTS

by Mike Dempsey

EC: Mike Dempsey CS: Bob Putnam

What a great day for Orienteering. Warm, but not hot, and just cloudy enough to make running pleasant!

And what a turnout! By my count there were over 300 people out there in the woods. Slightly over half of these were from the JROTC groups - although it looked a lot more if you were around the start area between 10 and 11am.

Thanks to Janet Putnam, Jeanne Ryba and Marilu for running registration, John Ide and Ray Bruneau for Start/Finish, Joe Maliszewski for single handedly placing all the controls, and Ron Eaglin for retrieving the advanced controls.

Bob Putnam and I had our hands full instructing all those new arrivals, and also helping at Start/Finish. Finally, Marilu and I collected in the White/Yellow controls as a relaxing way to view the park itself, while Jerry Sirmans waited at the pavilion for 2 stragglers who finally returned around 3:45.

PLEASE NOTE: you must report back to the Finish desk by 3PM or we have to start to organize a search party!

I only heard one complaint that maybe one of the controls was mis-placed, so it looks like Joe did a great job of placing the controls where Bob had designed them to be.

We should also thank Jonathon Linforth for printing a huge quantity of quality pre-marked maps. We received praises from a few newcomers that our maps were the best they had seen. (Of course they were probably comparing them to the maps produced by the parks and state agencies.)

My only disappointment was that I didn't get to see much in the way of wildlife this time. Maybe because I only did the Orange course - which didn't take me off into the more 'wild' areas. We did see a couple of large birds that looked like wild turkeys while pulling in the White/Yellow controls - not the usual Cranes that we often see at Moss park.

Hope to see you all out there at Wekiva next month! 📌

4TH Annual SECOND HARVEST FOOD BANK Food Drive, by Marilu Dempsey

FLO collected 230 pounds of food at Moss Park. This year Mike & I both had the pleasure of delivering the food to the Second Harvest collection point.

It doesn't seem like much against such great need, but it is a pleasure to be part of FLOs yearly drive, and part of the "solution" to hunger in Central Florida.

Thanks to all of you that remembered to bring a contribution. And feel sure that it is truly appreciated! 📌

☑ **UPCOMING EVENTS**, continued from cover

All JROTC units are welcome and while they may be competing for their own separate trophies, please note that all are equally eligible for the Florida Championship medals awarded to the fastest three men and women on each course.

Bragging rights from a win this year will be hard earned not only because the courses are championship caliber but because everyone within FLO lately seems to be getting a little better at this.

Don't miss the excitement, and be sure to contact either **Jerry Sirmans** or **Missy Kaler** beforehand if you think you'll have time to help out at the event. Large crowds mean large helper crews required.

See you there!

Jan 13 – Croom, Withlacoochee State Forest

That's right, once again our annual trek to the Croom District of Withlacoochee State Forest is the Second Saturday in January.

Are you beginning to notice that FLO events are almost all the second Saturday of the month? We'll try to keep it that way as long as the parks cooperate.

Croom, if you'll remember, is our westernmost venue and is a bit of a drive for most of our membership, but you'll be glad you did. The courses are being designed by our visiting friend from England, Bob Hill, whose name you may have seen at the top of the Results lists lately. He's a member of the Royal Air Force Orienteering Team and is here on temporary assignment.

And it gets better: the courses are being vetted (meaning this person goes out into the woods beforehand to re-check every control location for suitability, suggesting alternates where needed and generally making sure the courses are up to snuff) by one of the premier veteran orienteers in North America – Canadian, Gord Hunter.

Heck, we should have made this a Class-A event. But what do you care about that. You just want to have fun - and you will.

We have been working under an attendance cap the first two years at Croom but this year's permit has no such limitation. Maybe we're doing something right, although we do want to be on our best behavior to show the rangers how well behaved O'ers are, don't we?

Again, if you think you'll have time to help at the event, contact any of the FLO Officers or Board Members to put your name in.

Feb 10 - Ocala National Forest

It's not too early to plan for February. Second Saturday. Staging area will be on CR 445 about ½ mile north of the power lines.

This is our premier venue so you can't go wrong no matter where the event is staged. Beautiful fast open forests that almost make you want to get well off course just to enjoy the day a little more.

And it will be a perfect tune-up for the February 17-19 Class A-event hosted by our neighbors to the north, Georgia Orienteering Club (GAOC). Check out the USOF scheduling and GAOC web site for details on that.

Dec 29 – FLO Winter Annual Meeting

All FLO members and "regulars" are welcome to FLO's Social Event of the year, on December 29.

That's the Friday before New Year's. It will be at Andy Canelos' house again:

1208 Clinging Vine Place, Winter Springs, FL.
(Off Red Bug Lake Road, 1/4 mile East of
Tuskawilla Road, or 2 miles West of S.R. 417).

Note I called it a Social Event. Yes, it's the annual meeting, but there is this pot-luck dinner you see, and it's unfailingly fabulous, and it comes before any of the business is discussed.

Bring along any dish you like, so long as it's enough to share. We never assign desserts or salads or main dishes and it still always works out. It's the magic of orienteering, I guess.

FLO will provide some soft drinks, cups, plastic ware and ice. Feel free to bring your favorite beverage if you wish.

After Dinner, which starts at 6 (so don't be late) we usually get around to the Annual Meeting about 7-ish. This Year's Agenda will include election of Officers and Board members to two year terms as well as adoption of a new set of By-Laws for 501(c)3 incorporation. Note that if you want to be considered for any elected position you can submit your name beforehand to the Administrative VP or have someone nominate you from the floor.

The Agenda will look pretty much like this:

- Call to Order
- Introduction of members and guests
- Treasurer's Report
- Membership Report by VP Administration
- State of the Club Report by VP Competition
- JROTC and Adventure Racing Liaison Reports
- Permanent Orienteering Courses Status Update
- Discussion of mapping plans.
- Old Business
- New Business
- By-Laws Adoption and 501(c)3 Incorporation
- Election of Officers and At-Large Board Members.
- Toast to Outgoing Board Members.
- Adjournment

By this time it will be 9:30 or so and Andy will open up the billiard room and we all can spend the rest of the evening eating leftover food, swapping tall tales, or outright lies, and sorting through the accumulated collection of leftover maps, from all over the world, as souvenirs.

Sign up sheets will be available for all who want to help at future events in any way, from Event Coordinators and Course Designers to Results Hangers and Control Retrievers.

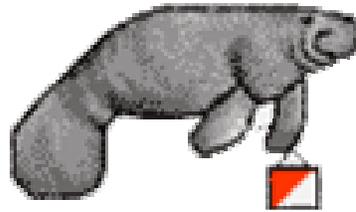

It will surely help Andy if you let her know you'll be coming, just so she can plan for us all. (andrea.canelos@siemens.com)

Hope to see you there. ☑
